50 CENTS PER MONTH

THAW DOUBLE-GUARDED TODAY

Fifty Canadian Lumber Jacks Appear Mysteriously in Colebrook

THAW'S HEARING DELAYED BY LAWYERS' CONFERENCE

Thaw Claims Deportation as Lunatic to Pennsylvania Under New York Laws

COLEBROOK, N. H., Sept. 12.—Harry Kendall Thaw was double-guarded today following the arrival here of fifty lumber jacks from the Canadian side, whose presence it was unable to explain. Two high-powered automobiles waited in front of the office. Thaw's attorney and the chauffeurs refused to state by whom they were employed. Officers feared an attempt to kidnap them.

Former Governor Stone of Pennsylvania, Thaw's chief counsel, arrived today and held conferences with the fugitive's local attorneys, then conferred with Attorney W. T. Jerome. As a result of the conferences, Thaw's hearing on the charge of being a fugitive from justice has been delayed. Jerome apparently believed that Thaw will be released on the fugitive charge and that his friends will then try to spirit him away.

Thaw voiced the theory that in view of having been found insane in New York, he should have been turned over to the Pennsylvania authorities. In a statement demanding to know "why New York is squandering thousands to get him back to Matteawan," he contended that the New York laws provide for the deportation of non-resident lunatics, unless charged with some crime. He said: "Inasmuch as I was acquitted of murder, it is the state's duty to send me to Pittsburg."

GLYNN SIGNS REQUISITION FOR THAW'S RETURN TO NEW YORK
ALBANY, N. Y., Sept. 12.—Acting Governor Glynn today signed a requisition for the return of Thaw from New Hampshire to New York.

Case Continued
Justice of the Peace Carr finally continued the Thaw case until tomorrow at the request of the attorneys on both sides. Armed guards accompanied Thaw from the hotel to the court, the authorities evidently placing credence in the reports that an attempt would be made to kidnap him.

Requisition On Way
POUGHKEEPSIE, N. Y., Sept. 12.—After securing from Acting Governor Glynn a requisition for Harry K. Thaw, District Attorney Conger of Dutchess county started for Colebrook to demand the surrender of the fugitive.

WAR MAPS FOUND DURING PROBE OF JAP ACTIVITIES
SACRAMENTO, Sept. 12.—The adjutant-general's office, which for several months has been semi-officially and secretly investigating the reported existence of numerous armed Japanese military organizations in California, has announced that thus far there was no evidence that state or federal laws had been violated. Accurate war maps of the California coast were found, but the office did not give out any information as to their ownership.

For more than two years at various times Japanese association incorporated as "non-profit" concerns have been organized in this state. They were formed, the articles of incorporation stated, to advance the interests of Japanese. The adjutant-general's office found that on several occasions these associations had entertained visitors from Japan, who had no government or private credentials.

A recent report from Los Angeles that several organized Japanese military companies are in existence in the south, with arms available for immediate use, is to be investigated by the adjutant-general's office.

There are about forty of the so-called Japanese associations in California at the present time.

WAR MAPS FOUND DURING PROBE OF JAP ACTIVITIES

CONTRACTOR DISAPPEARS
SAN FRANCISCO, Sept. 12.—Mrs. John A. Hendricks, the wife of a Los Angeles contractor, has appealed for police aid to search for her husband who disappeared a week ago after drawing \$1400 from the bank preparatory to returning to Los Angeles. She fears foul play.

Airman Killed—One Jailed for Looping Loop

ST. PETERSBURG, Sept. 12.—Aviator Avinas was instantly killed today at Krasno Jelso when his aeroplane fell, and Lieut. Nesteroff of the Russian Army Corps was court-martialed and sentenced to thirty days solitary confinement because he unnecessarily risked his life by looping the loop in an aeroplane.

WILSON CHARGED AS VIOLATOR OF LAW

Secretary of Labor Said to Have Conspired in Restraint of Coal Traffic

WASHINGTON, Sept. 12.—The sworn testimony that Secretary of Labor Wilson was one of the former leaders in an alleged conspiracy to restrict the output of the West Virginia coal fields in violation of the Sherman anti-trust act, was given before the senate investigating committee by Secretary D. J. Kennedy of the Kanawha Coal Operators' Association.

"Wilson," testified Kennedy, "was a former union organizer, then was secretary general of the United Mine Workers of America. He declared at a conference at Huntington in 1902 that the West Virginia miners must strike to permit the Pennsylvania strikers to win. The West Virginians then struck."

OHIO PRODUCES MOST POTTERY
WASHINGTON, Sept. 12.—The United States produced pottery during 1912 to the value of \$36,504,164, according to figures announced today by the United States Geological Survey. Ohio, according to today's report, was by far the largest producer of all the states during the year 1912. Ohio was credited with pottery production valued at \$15,508,735. New Jersey was second with pottery valued at \$8,000,000 and the next six states produced pottery valued at more than \$1,000,000.

SENATOR WORKS COMING HOME
WASHINGTON, Sept. 12.—Senator Works has decided again to return to California and will leave for the West this evening. It is probable that he will not return to Washington during the special session. Tom Fox, with his commission as Sacramento's postmaster in his pocket, left for home tonight.

GREAT BRITAIN WILL HONOR GAYNOR

Body of New York's Dead Mayor to Have Liverpool Escort and Will Lie in State

REMAINS TO BE BROUGHT HOME ON LUSITANIA

New York City Buildings Draped in Mourning for Her Distinguished Mayor

QUEENSTOWN, Sept. 12.—With Mayor Gaynor's body aboard, the liner Baltic touched here today and was boarded by the American consul. Gaynor's body will be taken on to Liverpool, England, and there transferred to the liner Lusitania, sailing for New York tomorrow.

HONORS PAID TO DEAD MAYOR BY LORD MAYOR OF LIVERPOOL
LIVERPOOL, Sept. 12.—The Lord Mayor of the city today issued orders for a mounted police escort to accompany Mayor Gaynor's remains from the Baltic's pier to the town hall to lie in state over night. Saturday morning the police will again escort the remains to the Lusitania, on which they will be conveyed to New York.

NEW YORK CITY BUILDINGS ARE DRAPED IN MOURNING
NEW YORK, Sept. 12.—Acting Mayor Kline today is aiding the members of the late Mayor Gaynor's family in preparing for the funeral of the dead official who passed away Wednesday on the Baltic while enroute to Europe. It is not yet decided whether the funeral will be public or private. It is understood that Mrs. Gaynor is not averse to public obsequies.

The municipal buildings are all draped in mourning and thousands of condoling letters have been received by the family. It is estimated Gaynor left a fortune of a million to a million and a half, much of which was made in Flatbush realty.

Condolences from Tokio
NEW YORK, Sept. 12.—Acting Mayor Kline received a cablegram from Baron Sakatani, mayor of Tokio, saying: "Please accept the deepest sympathy for your citizens on the demise of your beloved mayor from myself and the citizens of Tokio."

A month of mourning was formally ordered here today.

McANONY CHOSEN BY GAYNOR LEAGUE TO SUCCEED GAYNOR
NEW YORK, Sept. 12.—The Gaynor Independent League today chose President George McAnony of the borough of Manhattan as a mayoralty candidate to succeed the late Mayor Gaynor. McAnony was recently a candidate for the fusion nomination, and was defeated by John P. Mitchell.

THE REMARKABLE PERFORMANCE OF BOY OF FOURTEEN
Erving Burns, Son of L. Burns, Drives Ford Machine Across the Continent

News has just reached Santa Ana of a remarkable juvenile achievement in cross-country motoring. The hero is Erving Burns, 14-year-old son of L. Burns, whose home is near Hansen Station on the P. E. railway west of this city.

Some five or six weeks ago Mrs. Burns received a letter from her husband asking her and her children, Erving and two younger girls, Ardis and Mary, to make the trip across the continent in their 6-passenger Ford machine. Accordingly Mrs. Burns and the children started with Erving at the wheel, he being the only one of them who could drive. They went via the Grand Canyon, where they made a brief stop.

Today Senator Anderson's daughter, Isabel, received a card from her chum, Ardis Burns, announcing the safe arrival of the party at Champagne, Ill., without delay or mishap of any kind.

So far as the Burns family can learn Erving is the youngest boy who has ever driven a machine across the continent.

PRESIDENT AT WINDSOR, VT.
WINDSOR, Vt., Sept. 12.—President Wilson arrived today for a week's stay. Tonight he will witness a performance of "The Sanctuary," a bird play, at the estate of Naturalist Ernest Inaynes at Meriden.

JUDGES TESTIFY FAVORABLY TO HARRIS

Diggs' Lawyer Gets "Recommend" from Sacramento Jurists

WAS ASKED TO 'FIX THINGS' WITH MISS WARRINGTON

White Slave Victims of Diggs and Caminetti Tell Story for Third Time

SAN FRANCISCO, Sept. 12.—Three superior court judges of Sacramento were called by the defense as witnesses when the Maury Diggs and Charles Harris cases were called here today. The men were charged with subornation of perjury prior to the trials of Maury Diggs and Drew Caminetti on the white slave charges.

Judge Post testified that he had known Harris for eight years and that his reputation was good, and Judge Porter Fields gave the same testimony. Judge J. W. Fields testified that he recalled the fact that he had discussed Harris with Grove L. Johnson, Governor Johnson's father, both agreeing that Harris' reputation for integrity was good. District Attorney Wachters of Sacramento also testified to Harris' general good character.

Miss Nell Barton, the principal witness for the prosecution, testified that Harris had offered her to "fix things" with Marsha Warrington so that Miss Warrington would testify falsely in the Diggs and Caminetti trials.

Miss Marsha Warrington and Miss Lola Norris in this trial have told in public for the third time the story of their trip to Reno with Maury I. Diggs and F. Drew Caminetti.

Prosecuting Attorney Sullivan in stating the facts the government expects to prove said that after Harris had impudently told Miss Warrington to "fix things," and the latter had received instructions as to what to say from Harris and Diggs, she went to see Miss Warrington and told her what Diggs and Harris had said. Miss Warrington replied that she thought more of her parents than she did of lying, and advised Miss Barton not to get mixed up in the case.

IS GUARDIAN OF BLIND BOY

Pitiful Sight in Courtroom Today When Preliminary Step to Suit Taken

One of the most pitiful sights that the superior court has witnessed for many a day was that this morning when Willis Shay, a strong, husky boy of 16, was led into the courtroom. He came with all the uncertainty of step and action of the newly blind. It was only about a month ago that he was enjoying his eyesight, not thinking of the misfortune that was in store for him. He and his cousin, P. A. Walker, both of Fullerton, were at work on the Orcutt ranch at Montebello, putting in posts, using dynamite to loosen the dirt for digging.

An explosion occurred, and the boy's eyes were terribly injured. One eye is destroyed and there is little chance that he will ever see with the other. Today his uncle, E. B. Drakeley of Fullerton, was appointed his guardian that he may bring suit for the injuries received. His attorneys in the district attorney's office are investigating phases of the case preliminary to bringing an action for damages.

Walker had pieces of the dynamite cap blown in the flesh of his legs and arms.

INTERNATIONAL SPINNERS
BOSTON, Mass., Sept. 11.—Annual reports of the president and chairman of standing committees were the important events on today's program when the Spinners' International Union convened in annual session here today. Delegates from every state in which spinners are employed were present when the meeting opened.

WASHINGTON, Sept. 12.—The 100 foreign delegates to the International Congress of Students recently held at Cornell University, are in Washington today to remain until September 15 to study the system of foreign government. The foreign delegates are being entertained by the American Peace Society and the Pan-American Union. Later they will visit New York and Philadelphia.

WALLACE DEDICATES CALIFORNIA BUILDING

Represents Gov. Johnson at San Diego Exposition Ceremonies

Elaborate Program Marked Event—Naval Militia Aid in Ceremonial

SAN DIEGO, Sept. 12.—Lieutenant Governor A. J. Wallace arrived last evening from the North. He came as the representative of Governor Johnson to lay the cornerstone of the state building, to be erected on the Panama-California exposition grounds. Lieutenant Governor Wallace with the exposition and city officials was escorted to the exposition grounds by two companies of the Volunteer Coast Artillery Division of Naval Militia, and an elaborate program was given. Lieutenant Governor Wallace will be the guest of honor tonight at a banquet.

DAVID LAMAR PLACED UNDER ARREST

Indicted for Impersonating Congressmen as Confessed in Lobby Probe

WASHINGTON, Sept. 12.—David Lamar, conspicuous figure in the Senate lobby investigation and now under indictment in New York for impersonating members of Congress, was arrested here last night by order of Attorney General McReynolds. He was released on \$3000 bond.

When Lamar, a former Wall Street broker, first took the witness stand before the Senate committee and nonchalantly told of impersonating Representative A. Mitchell Palmer of Pennsylvania, Representative Riodan of New York and other public men, in an effort to have Edward Lauterbach, a New York lawyer, employed by the Union Pacific for work in Washington, it was said that there was no law by which he could be reached.

Later, however, the case was investigated by the federal grand jury in New York and indictments returned charging the former broker with impersonating federal officers with intent to defraud.

This is said to be the first attempt on record to punish impersonation of a member of Congress.

ILLNESS DETAINS EDISON FROM SHOP FIRST TIME 8 YEARS

WEST ORANGE, N. J., Sept. 12.—Thomas A. Edison, the inventor, is ill at his home in Llewellyn Park. For the first time in eight years he was unable yesterday to go to his laboratory, a short distance away. Mr. Edison is suffering from a cold, which he contracted while motoring in New England, and an attack of indigestion.

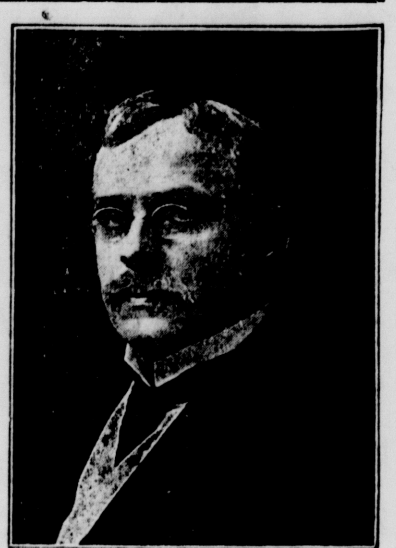

SECRETARY LANE IMPROVES
BERKELEY, Cal., Sept. 12.—Secretary of the Interior Franklin K. Lane is much improved. That he was able to sit up today was the statement made last night by his brother, Dr. Frederick Lane, at whose house the secretary has been cared for since his collapse at the Admission Day celebration in Oakland Tuesday.

COAL OUTPUT INCREASES
CHICAGO, Sept. 12.—Production of coal in Illinois in 1912 reached the great total of 59,855,226 short tons with a value of \$70,294,338. These are the record breaking figures for the state announced today by E. N. Parker, coal statistician of the United States Geological Survey, who figures that the total area producing coal in Illinois, which is not generally known as a "coal state," is approximately 35,600 square miles, including half of the 102 counties of the state.

SOCIALIST PARDONED
SACRAMENTO, Sept. 12.—Governor Johnson has pardoned Harry McKee, a Socialist attorney of San Diego serving six months in the San Diego county jail for conspiracy to violate the city ordinance prohibiting street speaking.

MANIAC ABROAD IN HEART OF LOS ANGELES TODAY
LOS ANGELES, Sept. 12.—Pursued through the business section by the police, a maniac who had attacked several women near the Normal school grounds in the heart of the city, was overpowered today after a desperate struggle with three police officers and four citizens. He was unable to give his name.

CONCRETE CONSTRUCTION
WASHINGTON, Sept. 12.—Indicating the steady advance in concrete building construction over more ancient methods, the sand and gravel output in the United States during 1912 surpassed the output of any other year excepting 1910, according to figures made public today by the United States Geological Survey. The output for 1912 was valued at \$23,081,555. Although the 1911 output was larger in quantity, its value was only \$21,158,583.

LIEUT. GOV. A. J. WALLACE

CAUCUS SYSTEM ATTACKED IN CONGRESS

Representative Anderson Seeks Economical and Simple Legislation

WASHINGTON, Sept. 12.—Attacking the "evils of the caucus system," Representative Anderson of Minnesota who yesterday resigned from the ways and means committee as a protest, today introduced into the house a resolution creating a commission to investigate the legislative methods of Congress.

Representative Anderson declared this is the first step taken in a fight for simpler and more economical methods. The resolution demands a report of whether any system should be used the effect of which unreasonably deprives a member of the house of his rights and prerogatives.

JUDGE BLEDSOE TO ACT IN BIXBY CASE

Trial Continued to Tuesday to Allow Judge to Arrange Home Court Matters

LOS ANGELES, Sept. 12.—Judge Benjamin F. Bledsoe of San Bernardino will try the Bixby case, and the trial will begin on Monday morning. Announcement to that effect was made in court today by today's Acting Judge Perry Wood. Monday was fixed to permit Judge Bledsoe to arrange his own court matters.

Bixby did not appear in court. He was represented by Attorneys Oscar Lawler and Lecompte Davis.

Asa Keyes, deputy district attorney, is prosecuting the Bixby case. Mr. Keyes declares that he has located Miss Esther Cochran, the young girl witness for the state who disappeared for a short time. He said that Miss Cochran was willing to testify against Bixby.

Later Continued to Tuesday
Bixby's attorneys later appeared in court and stated it was impossible for them to appear on Monday, and the case was then continued until Tuesday.

WILL PUBLISH MAGAZINE
WASHINGTON, Sept. 12.—The United States government is going into the magazine publishing business for the benefit of the farmers. A monthly magazine will be put out by the department of agriculture, this month. The publication will be devoted principally to a detailed review of crop conditions presented in a popular way.

SIX HURT IN CAR MISHAP
VALLEJO, Cal., Sept. 12.—Six people were injured when an electric car on the San Francisco, Napa and Calistoga railroad today ran into an open switch. There were forty people in the car. Thirteen were killed in an accident on this road in June last.

BARNHART'S FIFTY-SIXTH YEAR
WASHINGTON, Sept. 12.—Representative Henry A. Barnhart, today received congratulations from his colleagues in the house on passing into his fifty-sixth year. Representative Barnhart was born September 11, 1858. He was fifty-five yesterday.

JAS. A. WATSON DENIES ALL CHARGES

Says Mulhall's Allegations as to Corruption Are Unfounded

HE NEVER DICTATED AP-POINTEES TO 'UNCLE JOE'

Said That Was Unbelievable; Admitted to Accepting Labor Political Aid

WASHINGTON, Sept. 12.—A general denial of allegations against him by Col. Mulhall was made today by former Representative James Watson of Indiana before the house "insidious lobby" probers committee. Mulhall had testified that Watson, while a member of congress was paid a weekly salary by the National Association of Manufacturers to antagonize all labor legislation. Watson testified: "I was never approached by officials of the national association nor was I asked to favor any legislation in which they were interested. I never was a lobbyist. I also wish to deny that I ever put friends of national manufacturers on house committees. You need not tell me that any man could tell Uncle Joe Cannon whom to put on committees. Sometimes he asked me what I thought of such a man, but I never asked him why, but always told him without asking."

Watson admitted that when he was a candidate for governor of Indiana, Mulhall offered to help him with organized labor and that he told Mulhall to proceed. He denied that Mulhall ever collected funds for any of his political campaigns. He said: "I want to add that I never saw a corrupt man in the house and never knew of any attempt to corrupt congressmen and moreover do not believe any members of the house were corruptible."

WHITE SLAVERY PROBE IN 'FRISCO

Investigation Pressed Deep; May Disrupt Cadet Organization

SAN FRANCISCO, Sept. 12.—Acting under the orders of Mayor Rolph, Detective Thomas Furman of the city's white slave bureau is pressing deep the probe into white slave conditions which may lead to the disruption of the cadet organization here and to the arrest of certain care keepers in the tenderloin districts.

Complete secrecy is being maintained during the investigation. Watch is being kept on several cafes and sufficient evidence has already been gathered to convince detectives of the identity of the ring leaders in the traffic.

BANQUET MENU OF CREMATIONISTS

PARIS, Sept. 12.—The menu for the Cremation Society banquet was announced today. It was in French, of course, but translated it ran like this:

Soup of Tears
Grilled sardines in a quick fire
Mutton à la Carbon
Chicken, Half Mourning
Cuts of veal in a hot stew
Irish Potatoes, Cooked Under the Cinders
Plum Pudding, in Flame
Little Cakes, à la Crematory
Lacryma-Christi in urns
Fruit Wreaths

The society was founded for the propagation of cremation and of late its growth has not been as rapid as was hoped. The banquet is intended to enliven the thing and make the Styx less gloomy and induce new members to join.

KAISER WILHELM BECOMES OUT AND OUT TELTOTALER

Terrible Statistics of Results From Intemperance in Germany Made Him An Abstainer

BERLIN, Sept. 12.—Kaiser Wilhelm has become a "teetotaler." This report of the ruler of the country famous for the finest beer and choicest wines in the world has come as a distinct shock to two of the biggest industries in Germany. These feel that he may become an ardent advocate of the growing temperance movement in the Fatherland.

The latest development in the character of the many-sided Kaiser, who is in close contact with his subjects, is a decided antipathy to all alcoholic drinks. This has grown to an extent that he virtually never touches liquor any more. He has not

as a surprise that Kaiser Wilhelm has upon several occasions drunk toasts with water. Unlike Bryan, however, the Kaiser doesn't insist that others also drink water. There is always wine on the table for those who like it and want it. The Kaiser is said to have laughed heartily when he heard of Bryan's grape juice banquet to the foreign corps in Washington and remarked: "Well, a little water or something soft won't do the diplomats any harm."

When the Kaiser sits at table, a hedge of flowers, cleverly arranged, invariably screens his plate from the majority of the guests. Under this arbor are hidden his glasses. Some of them are colored and it is practically impossible to tell when His Majesty drinks water and when he drinks wine toasting his guests. While swearing in the naval recruits in Wilhelmshaven this spring, he openly drank the toast in water. Recently when he was asked whether the officers in the army and navy might drink his health in water or grape juice, he is said to have replied that he did not have the slightest objection to the practice.

It cannot be said that much fuss is being made in the press or by the public over the Kaiser's latest plan to quit any kind of alcoholic drinking. While the temperance movement is making steady gains in Germany, total abstinence on the part of the Emperor is decidedly unpopular in many official circles. Only a few months ago the Minister of education in one of the South German states refused to permit the establishment of a Good Templars lodge on the ground that the movement "threatened one of the most important industries in Germany and should not be encouraged."

FRECKLES

Now Is the Time to Get Rid of These Ugly Spots

There's no longer the slightest need of feeling ashamed of your freckles, as a prescription, othine—double strength—is guaranteed to remove these homely spots.

Simply get an ounce of othine—double strength—from Mateer's Drug Store, 104 West Fourth street, and apply a little of it at night and morning and you should soon see that even the worst freckles have begun to disappear, while the lighter ones have vanished entirely. It is seldom that more than an ounce is needed to completely clear the skin and gain a beautiful, clear complexion.

Be sure to ask for the double strength othine as this is sold under guarantee of money back if it fails to remove freckles.

NEW INDUSTRY OF MUCH PROMISE FOR OUR NEIGHBOR CITY

It looks like our sister city of Orange is going to develop quite an important industry—that of manufacturing automatic vendors.

The market for these "silent salesmen" is practically unlimited, and the Continental Sales Company, which is operating in Orange, has perfected and patented, or bought the patents of a number of models of unusual merit. This company, of which Superior Court Judge Z. B. West is president, recently purchased the Model Manufacturing Company's building and machinery located adjoining the Southern Pacific Company's right-of-way on West Chapman avenue, Orange. This is a splendid plant, exactly suited to the manufacture of the machines.

In addition to Judge West, president and director, the officers and directors of the Continental Sales Co. are: Geo. W. Miller, vice-president, general manager and director, late of the Transcontinental Freight Bureau, Los Angeles; Clinton Idler, retired, secretary and director, Anaheim; Jay color, treasurer and director, nursery business, Anaheim; J. E. Sloan, director, agent S. P. Co., Santa Barbara; William Davidson, sales manager and director, Anaheim, over 25 years experience in commercial lines; Homer Ames, director, Anaheim, attorney-at-law; National Bank of Orange, depository.

In another part of this paper the Continental Sales Company has a business announcement which is very interesting and instructive, aside from the business proposition presented.

ENTERTAINED LAST EVENING

Fraternal Aid Association
Members Guests at the
Unland Home

(By Staff Correspondent.)
ORANGE, Sept. 12.—Mr. and Mrs. S. Q. Unland gave a novel and thoroughly delightful entertainment last evening, the Fraternal Aid Association members being their guests.
The yard was prettily decorated with Jack-o'-lanterns, which lighted the surroundings brilliantly. Inside the house was profusely decorated with pink and white asters. The evening was spent with games, both indoors and out. Each guest was given paper and pencil and requested to draw a picture of some animal raised on a ranch. C. B. Campbell won first prize, C. L. Conway won second prize and Miss Lea was given the consolation. There were other games of various kinds and later the guests were treated to melons and grapes, served by "nigger" servants. W. W. Perry, Miss Gertrude Perry and Mrs. A. H. Small, nicely blacked up, acted the colored parts in fine style. Partners for supper were obtained by having the ladies walk between a light and a stretched sheet, while the gentlemen guessed their identity by watching the silhouettes thrown up on the sheet.
Those present were: Mr. and Mrs. G. A. Shoemaker, Mr. and Mrs. C. L. Conway, Mr. and Mrs. D. F. Campbell, Mr. and Mrs. A. F. Lankford, Mr. and Mrs. D. C. Drake and son David, Mr. and Mrs. C. B. FINE PARADE THIS MORNING BY RINGLING BROS. CIRCUS

This is circus day!
When the sun arose this morning it found plenty of activity in the railroad yards where Ringling Brothers' trains were unloading all of their red and golden circus. Four trains brought the big show into the city with eighty-six cars, bringing 1,300 people, more than 600 horses, herds of elephants and the famous harness teams of camels and zebras. No alarm clocks were needed to get the small boy out of bed this morning for he was down at the tracks before dawn waiting for the first glimpse of the circus, and there was with this youthful throng a large majority of those real, red-blooded boys who never grow up, and are always Peter Pans when the circus comes to town and just as eager to lead the spotted ponies to water.
Circus day had hardly dawned when people began coming into the city. All railroads and country roads led to the blue pennant canvas city. All the railroads brought in excursions on special trains and long before the parade reached down town, the streets were thronged with people. The Ringling Brothers have always kept their promises and their loudly heralded street pageant was another proof that their word was good. No more glittering and brilliant display has ever been made in this city. The parade, nearly three miles in length, was one unending array of novelties, light and color. The fa-

Norman Hedges, 4-year-old son of Mrs. Vera Hedges, who, with her husband's parents, Mr. and Mrs. Chas. Hedges of Anaheim, were visiting the Wm. Davidson home, 220 South Orange street, was painfully hurt last evening. The little lad stumbled and fell, striking his head against the corner of the marble steps. A deep gash was cut and blood flowed freely but the wound was not serious. The boy was attended by Dr. Loughridge.

mous Ringling horses, both in the teams and the cavalcades, mounted by men and women in the gorgeous costumes of the time of Charles VII, made a splendid showing. Pretty and effective pictures were made by the tableau cars which were filled with girls in gay garb. There was plenty of music and the old friends, the clowns, received a welcome equal to a congressman coming home with a job for every office hunter.
The afternoon performance began at 2 o'clock and the big tent was crowded. Opening the bill came the spectacle of Joan of Arc, in which more than 1000 characters appear, telling in pantomime the dramatic story of the Maid of Orleans who went forth to battle for her country and her king. Nothing so richly costumed or so effectively presented has ever been given here before. The opening pageant, the ballet of dancing girls and the tournament were veritable surprises. The spectacle was followed by the circus performance in which 3.5 men and women appeared. More novelties than ever before are presented, the Ringlings having brought from Europe the majority of their people.
The final performance will take place tonight at 8 o'clock; the doors open an hour earlier allowing time to visit the extensive menagerie and also to enjoy the operatic concert rendered by the military band of eighty pieces.

evening at his home on West Chapman avenue. His classmates of last year's high school graduating class, of which Mr. Kroener was president, were the guests.
They met at the C. Z. Bates home and then proceeded to the Kroener residence, not finding their prey, who was attending choir practice. He was surprised to find them waiting for him when he came home.
The evening was taken up with games, out of doors and inside the house, where Miss Gladys Gorton entertained the company with piano selections. Refreshments of ice cream, cake and candy were served.
The following were present: Misses Hazel Thompson, Gladys Gorton, Ethel Ensign, Mary Gates, Wilda Claypool, Nelle Pister, Fae Mellor, Flossie Bates, Laura Robinson, Mabel Harbour, Frances Skuse, and Frances Dailey of Escondido; Messrs. Will Kroener, Fred Bates, Harold Gorton and Herbert Wagner.

THE COUNTY TAX RATE

The Register is no more anxious to pay "high taxes" than the next fellow. But what is "high taxes?" A county rate of \$1.45 may not be as "high taxes" as a rate of \$1.40 or even less. With not enough money to efficiently and economically carry on the county business there may be a waste or loss that will in the long run, if not immediately, cost the taxpayers more than the difference between \$1.40 and \$1.45 for instance.

The county's business is not different from the business of any other business of large dimensions. It must have ample money for operating expenses or be operated at a higher cost. In the maintenance of public improvements as in all human affairs a stitch in time saves nine. To defer work that is needed, or to do it piecemeal, is expensive. A low tax rate one year often means a high one or higher valuations the next year.

Of course with an incompetent or extravagant or dishonest administration of public business in any branch having authority to expend money, it may be wise to keep the tax rate down, but we are not admonished by any such conditions in Orange county.

We have every confidence in the sincerity of those who contend for a low rate, but in view of the rapid growth and development of Orange county and the efficiency and economy with which its affairs are administered, we doubt the wisdom of keeping the rate down to the lowest possible figure.

UNCHRISTIAN CHRISTIANITY

"Anyone seeking a cause for the decline in the influence of churches need not go much further than a few sentences which were used by a San Francisco clergyman who has been writing special articles for a morning newspaper upon the Digs-Cammetti trials." Thus saith the usually fair and intelligent San Francisco Bulletin; and so far as it thus characterizes the clergyman who wrote the articles referred to, the paragraph is no reflection upon its fairness or its intelligence. The unwisdom and injustice come in through the sweeping implication of all clergymen, or at least of clergymen as a class. While there are many narrow-minded "un-Christian Christians" in the world, entirely too many of whom are found in pulpits, it is not to be admitted for a moment that the attitude of the clergyman who wrote the articles on the Digs-Cammetti trials is characteristic of clergymen in general.

This clergyman said of the girls in these cases: "They are bad girls; wicked, treacherous. . . . They will suffer. They are suffering. And they ought to suffer." To which the Bulletin replies, and to which reply we say amen:

"They ought to suffer! What man on earth is so far beyond the reach of the little forces that pull us back and forth and make us good and bad as to be able to say that? What man is so presumptuous as to measure out the penalty which ought to be imposed upon these two unhappy girls?"

"They ought to suffer! Does this follower of the Galilean, whose mission on earth was to relieve suffering and to comfort alike the afflicted and the sinful, think to improve upon the doctrine of his Master? Does he remember a man who said, 'Let him that is without sin cast the first stone?'"

"Let this clergyman look into his own heart. He has committed no outward sin, let us say. He has kept all the law and the commandments. But has he kept himself pure from the corruption of self-righteousness? Has he kept his heart tender, not only toward those who suffer but toward those who have, as we call it, sinned?"

"They ought to suffer! Did the Master whom this man assumes to serve use such words as that to her who poured the precious ointment on His feet and whom His disciples said was a bad woman? No, he told her to go in peace."

"They ought to suffer! Let any man—clergyman or layman—who is without sin say that and we will listen. But those of us who have sinned, in thought or word or deed, will hold our peace."

CONTRACT LET TO SAN DIEGANS FOR HIGHWAY TO LAS FLORES

Oceanside Blade: The contract for the construction of the ten-mile stretch of the state highway from Oceanside to Las Flores has been awarded to the C. L. Hyde Construction Company of San Diego. As soon as preliminary arrangements with the state commission are made the company will begin active work and will rush the sub-grade to completion as soon as possible in order to take advantage of the winter rains. The cost is about \$100,000, averaging about \$10,000 a mile. The Hyde company was the second lowest bidder for the work. The lowest bidder was disqualified for failure to give a bond acceptable under the law. The Hyde Construction Company was the only San Diego concern to bid for the work. With the completion of the Oceanside-Las Flores stretch by the Hyde company only one more ten-mile stretch of the state highway to the county line on the north will remain to be built. The road has been built from San Diego to Del Mar and the piece from Del Mar to Oceanside is now under construction.

DRAMA ABROAD AND AT HOME

By Beau Rialto

NEW YORK, Sept. 11.—White slavery is the keynote of the season's melodrama and perhaps it is not a far cry back to black slavery. Hence the revival of "Uncle Tom's Cabin." It's the power of suggestion again. Perhaps the power of suggestion is nowhere more potent than in the show business. Every hit is followed by hundreds of imitations, just as surely as a man is followed by his shadow. Peter lost his shadow, yes, but by the same token he has never been imitated, which leaves the rule unshattered. With our drama slowly but profitably selling itself into white slavery, was it any wonder that a Harlem stock manager thought of black slavery and revived "Uncle Tom's Cabin?" "The Lure" at Maxine Elliott's was the forerunner of an avalanche of "social evil" plays and here was Mrs. Browne's slave play "ready for production." "Uncle Tom's Cabin" is so old that it is new to a lot of folks on Broadway and off, and such a radical le-

covering every part of the nation and its development. In the east are Indians, cowboys, plainsmen, Alaskan miners, soldiers—and girls. There are hundreds of the latter, dancers, singers, "lookers" and just plain girls. For many weeks the girls have been drilled tirelessly, their rehearsals lasting from morning until far into the night, and they are said now to be the best trained chorus in New York. Over 500 new faces are to be seen in the east and chorus this year. But the chorus girls and men are not to be seen in the stereotyped ballet, as in former Hippodrome spectacles. The great feature of this year's show is the Carnival of Sports, which replaces the ballet.

Arthur Voegtlin, who trained the girls, thinks that all of the sports of the world lend themselves to art, and the girls this year, instead of going through the old time dancing steps, participate in every form of sport, correctly costumed. Baseball, football, racing, hunting, basket-ball, polo, yachting, riding, tennis and swimming all are portrayed. And contrary to the usual Hippodrome spectacle, this one has a real plot. It involves the foiling of a plan to get possession of certain Panama Canal maps, a love romance and subsequent honeymoon trip into every part of the United States, California, Arizona, Panama, Alaska, the Philippines and other places are shown.

There is a bit of real "local color" in Potash & Perlmutter, the sensationally popular Montague Glass play now running, which portrays the doings of those humorous Hebrew partners in the cloak and suit business.

Among the characters are four models, former chorus girls, and to get the necessary ideas for their parts the four girls worked for three weeks as cloak models in a department store.

To give them more realism, the girls sought and obtained the positions themselves, telling neither the store management nor the other girls of their purpose, and for eighteen days they worked as models, showing off cloaks, suits and gowns to prospective buyers.

"Never again for mine," said one of the girls, telling of her experience. "The chorus is plenty good enough for me, thank you. Talking about temptations, the glaring part of Broadway is a Sunday school compared to those department stores."

"On the stage a girl can go her own way and not be molested if she wants to, but those models cannot get away from those fresh guys from Kalamazoo and Syracuse, the buyers I mean. Looking over a suit, they run their hands over the arms and bodies of the girls to feel the fit—huh—and whisper a wine supper invitation every time. If those poor models accepted every bid they got, they'd be soured in no time, and besides would lose their shapes and their jobs. The stage is safer for girls any day in the week than a department store, take it from me. I know, for I had three weeks of it."

"The Doll Girl" with Richard Carle and Hattie Williams; "Kiss Me Quick" by Philip Bartholomae; "Where Ignorance is Bliss" and "Adele" are among the latest shows to open.

A Land of Opportunity

Humboldt County, the least developed in California, presents splendid opportunities to investors and homeseekers. Men and money are needed for dairying, small fruit growing, truck farming, general farming and apple raising. A country of wonderful resources and ideal climate into which the first railroad is now building. All inquiries promptly answered by the Humboldt Promotion and Development Committee, Eureka, Calif.

Ideal Fireless Cookers

If we knew of a better fireless cook stove than the "Ideal" we would now be talking about it. We long ago discovered that while many good articles can be satisfactorily reproduced in a cheaper form, cheap fireless cookers are utterly worthless.

The principles upon which fireless cookers are built will not permit of satisfactory cheap construction, yet if our statement would not be misconstrued, placing us in a false light, we could truthfully claim that the "Ideal" is the cheapest fireless cooker on the market. All things considered, it is.

No amount of talk here, however, can begin to convince you like a demonstration at our store. It would be decidedly worth while for you to come and at least learn the advantages of "Ideal" Fireless Cook Stoves.

STEDMAN-HOEFER

Quiet Home Wedding Took Place Yesterday of Well Known Santa Ana Girl

Miss Helen Hoefler and Albert Thornton Stedman were united in marriage yesterday afternoon at the home of the bride's parents, Mr. and Mrs. C. Hoefler, 1717 Bush street, the wedding being a quiet one on account of Mr. Hoefler's illness. The impressive ceremony, pronounced at 2 o'clock by Rev. August Huelster, was preceded by the singing of "O Promise Me" by Mrs. Arthur Hoefler. To the strains of the wedding march from Lohengrin, played by Miss Martha Schindmeyer, the bride entered the parlor, where the ceremony was said, from the living room and was met by the bridegroom coming from the library. Unattended the two took their places under a lovely canopy of greenery in which was suspended a wedding bell of pink asters and ferns. Pink asters and ferns were used throughout the simple but tasteful decorations of the house.

The bride was charmingly pretty in a rich wedding dress of white crepe chiffon and lace over white messaline, pearl trimmed and cut decollete. She carried a shower bouquet of lilies of the valley and maidenhair ferns, and was unadorned excepting for a handsome hair ornament.

The marriage ceremony was impressive and was concluded with the recitation of a beautiful original poem by the officiating minister. Only relatives and close friends were present, among these being Mr. and Mrs. Brown of Pasadena, the uncle and aunt of the groom, and Mrs. Malbury of Los Angeles, another aunt of Mr. Stedman, who is from Los Angeles.

After congratulations and the serving of delicious light refreshments, Mr. and Mrs. Stedman left for a wedding trip to Santa Barbara. On their return they will remain at the Hoefler home for some time owing to the illness of the bride's father. Later they will reside in South Pasadena where their own home awaits them.

The bride in today's event is well known here and will receive the warm congratulations of many friends.

Show for Miss Crawford

A show for Miss Crawford was given by Miss Edith Stearns Thursday afternoon which was attended by the members of the Alkali Sunday School class of Tustin. A large white crepe paper bell was arranged in the center of the room. Miss Crawford was placed under the bell and each girl was given a bolt of baby ribbon paper. By catching the center of the bell and throwing the curly blue and white baby ribbon paper by all the girls, Miss Crawford was soon enveloped in rippling curls and of course was surprised because she didn't know what was coming. The color scheme was gold and blue which are

Tomorrow night we shall have an important announcement to make. Watch for it.

We have wished for quite a while to add a certain department to the Conservatory and at last we believe just the right time has arrived.

You will be interested in it, for it is work for which many are now going away. It will be yours at home, at far less expense and inconvenience.

Besides, it will be in charge of an instructor whose association with some of the best known schools and colleges in the East have earned for her the best of recommendations. 504 1/2 N. Main St. Pacific 214.

this morning to see the circus trains arrive. The Harris home was arranged to simulate a boarding house, rules and regulations being posted here and there. The euphonious name of this modern hostelry was announced as being "Sleep-for-We-Are-All-In."

A theater party was the first pleasure of last evening, the girls visiting the Auditorium with Mrs. Frank Harris as chaperon. On return to the Harris home a light supper was enjoyed, and with the safety that is inevitably in evidence when happy young girls are together in a congenial party, the time flew so swiftly that it was a late hour before they retired to catch a few winks of sleep.

Arising at 4 o'clock, the girls had a before-dawn breakfast, then proceeded to the railroad station to see the circus trains roll in and discharge their living freight of wild animals, handsome horses, and all that goes to make up the attractions of Ringling's world-famous circus.

The young ladies in this pleasant from Thursday evening to Friday morning party were Misses Harris, Lillian Fisher, Merle Ober, Grace White, Esther Fluor, Arville Ball.

Woman's Committee

The work for the new year of the Woman's Committee was begun yesterday at the home of Mrs. C. H. Wilson, 1126 West Pine street. The meeting was opened by a solo by Mrs. J. Millbank. The ladies then answered to roll call by answering the question: "How can we make our meetings more interesting?"

Several visitors were present and one new member was enrolled, and the following officers were elected for the year 1913-14: Organizer, Mrs. B. Anson of Garden Grove; secretary, Miss Olive A. Edgerton; recording secretary, Mrs. C. H. Wilson; treasurer, Mrs. J. Millbank; pianist, Mrs. Frank J. Barnes.

Miss Marion Israel of Pasadena, secretary of the State Woman's Committee, was present and gave an interesting and enthusiastic talk on how women were taking hold of the vital problems.

Then followed several musical selections on the madolin and guitar by Mrs. Millbank and Miss Mildred Bruce. The president then served dainty and cooling refreshments and the committee accepted an invitation to meet Thursday, Sept. 25, with Mrs. Umahum, 129 West Third street.

Travelers to Meet

Travel Club, Number One, will open its season's work with a meeting to be held next Monday afternoon at the home of Mrs. H. J. Dawes. There will no doubt be a large attendance as the ladies will be pleased to reassemble after a lengthy summer vacation.

Travel Club No. 2

This section of the Travel department of the Ebbeh'll open the year's meetings with a social event, the members having been invited to be the guests of Mrs. W. M. Clayton at a 1 o'clock luncheon to be given at her country home near El Modena next Monday.

Automobiles conveying the party will leave here at 12 o'clock sharp.

Miss Rowley's Party

The third in a series of of needlework parties given by Miss Hazel Rowley was given at the Rowley home on Cypress avenue. As on the previous occasions, the guests were entertained at fresco, chairs and rugs under a spreading palm tree making a charming scene.

A buttonhole contest and a threading needle competition enlivened the afternoon between the intervals of needlework and conversation. Miss Gertrude Montgomery was awarded a pair of buttonhole scissors for making the best buttonhole in the shortest time, while Miss Grace Parker was awarded a case of needles and a miniature workbox filled with candy were the prizes awarded in the needle-threading contest.

Fruitade as served during the afternoon and after tables were set on the lawn, a salad course, ice cream and cake were served, the refreshments being in yellow and white to correspond with the decorations in which gold glow and sunflowers were employed.

The invited list included Mesdames Will Anderson, Charles Winans, Ella J. McNeil, Mabel Thompson, George Cole, George Lewis, W. A. Patterson, Charles Haper, C. A. Gustlin, Fred Wilson, Lora Lewis, Misses Bessie Lewis, Mae Wood, Laura Fenstermacher, Fannie Smart, Mary Smart, Janet Smart, Robbie Jones, Hattie White, Jan Humphrey, Zoe Glidden, Nellie Sumner, Esther Patterson, Leslie Smith, Ed Hill, Lulu Finley, Suzanne Clonmb, May Brightwell, Mabel Nick, Elsie Harrison, Della Daniel, Gra Parker, Alfreda Holzgrate, Rosand Norman, Lillian Norman, Ruth Jeardoff, Annette Dearborn, Delfillyard, Fay McKean, Ray McKee, Lois Tedford, Caroline Eagonson, Elizabeth Eagonson, Mary and Alice Ed, Edith and Mabel Culter, Inez Lotta Cloyes, Gertrude Montgomery, Edna Blee, Mary Shrewsbury, Bernice Shrewsbury, Annamay hapman, Lillian Barnard.

Delivered Two Addresses

Rev. J. Stevenson of this city, delivered a sermon which was a leading feature of the night of the installation of DAV. E. Sloane as pastor of the Placencia church. The charge to the people was given by Dr. Robt. Cleland of Los Angeles and Dr. Wm. S. Young of Los Angeles followed.

The Placencia church is the youngest in the county, being a lusty organization of one year of age, with a membership of sixty or seventy and a nice church building.

Another church event in which Mr. Stevenson was the principal speaker was the opening of the enlarged and remodeled Presbyterian church at Fullerton on last Tuesday evening. He delivered the address of congratulation and opening. The church as remodeled is a handsome one with the newest up-to-date concealed electric lights.

Mr. Stevenson's own church, the First Presbyterian of this city, will have a try-out at 2 p. m. tomorrow afternoon at the church of the Mears car phone. Any one interested is invited to be present.

Club Party

Misses Frances and Gertrude Potts entertained the N. M. U. Embroidery club at the residence of their sister, Mrs. Geo. S. Briggs, last night. The house decorations were of lavender and white, asters in baskets. Punch was served during the evening and later light refreshments were served.

Those invited to be present were Misses Opal Baker, Marguerite Wallace, Alice Wasse, Marie Briggs, Lena Stafford, Adeline Hill, Hazel Stockslager, Zelma Sturgeon, Zoe Vanderlip.

District Meeting

President J. E. Armstrong of the Santa Ana Fraternal Aid, yesterday afternoon entertained the visiting delegates to the Fraternal Aid district convention held here, to be his guests at Taylor's, where cooling refreshments were served.

This hospitable act followed a good meeting in which delegates from seventeen councils were present, including those of Santa Ana, Corona, Whittier, Fullerton, Anaheim, Orange, Garden Grove, Westminster, Artesia, San Diego, National City and others.

R. P. Mitchell was elected permanent chairman and the following were chosen delegates to attend the biennial general council meeting at Lawrence, Kansas: J. P. Campbell of Orange and J. W. Chaney of Corona. Fannie M. Lacy of Santa Ana was elected as representative to the general council.

Personals

Miss Sedalia Cubbison has gone to Ontario, where she will again teach this year.

Mrs. J. T. Potts, who with her daughter, Miss Gertrude, and son, Clifford, have been staying at the home of her daughter, Mrs. George S. Briggs, will leave tomorrow for a home in Kansas, Arizona. Mrs. Gertrude will remain here as a teacher in the public schools of Santa Ana, and Clifford will go to Los Angeles to attend the poly high of cost city.

H. H. Roper left yesterday for San Francisco and other points for a visit with relatives.

Frank Cannon of the postoffice force is taking his annual summer vacation. He and Mrs. Cannon will spend part of the time at Venice.

Miss Allie Hallett Taylor, who taught last year at Monrovia and who is spending the summer at that place, is at home for a week's visit. Miss Taylor has been most successful in her work and was solicited to remain at Monrovia this year, but has accepted a position in the Los Angeles city school system, being located at San Pedro where she will hold a high school position.

Mrs. Annie Lacy and Frances M. Wilson went to Los Angeles today to be present at Edwies Rebekah Lodge to meet Mrs. James A. Bennett, president of Rebekah Assembly of California, who is making her official visits in Southern California.

Mrs. Ed. Nelson returned today from Los Angeles where she went to bring home her little son who has been the guest of his grandparents, Mr. and Mrs. Cutler, since last Sunday.

Mrs. I. C. Birt is taking a two weeks' vacation, beginning with today. She will visit friends in Nevada during the fortnight.

Mrs. Merritt left today for Decatur, Illinois. She will meet her sister, Mrs. McClung, in Los Angeles and will see her brother in Katy, Texas, while on her way.

California Jubilee Quartette

Jubilee Quartet to Be Here Next Week

"Every member of the California Jubilee Quartet is an artist in his particular line and all show remarkable ability and training in quartet work. Impersonations, instrumental solos, readings from that noted colored writer, Paul Laurence Dunbar, quartets, solos, duets and trios make up a most varied and entertaining program."

"The feature of the evening is the work of the double-voiced singer, the man who possesses the baritone and the highest notes with an ease that is astonishing. The pianist is advertised as the 'Black Paderewski,' and is said to be the finest colored pianist in the country. Mr. Hill, the bass singer, has an exceptionally melodious voice, smooth and strong and one that strikes the ear pleasantly at all times."

One wonders just how low he can go as he continues on down the scale, never seeming to reach his limit. It would be hard to find a tenor singer with a purer and more systematic voice than Mr. Browning."

The Jubilee Quartette will be at Orange on Sept. 15 and at the First Methodist Church, Santa Ana, on Sept. 16. They are coming to Santa Ana under the auspices of the local Y. M. C. A. which is guarantee enough to the citizens of Santa Ana that the entertainment will be first-class in every detail.

The local officers of the Y. M. C. A. do not put on these entertainments from time to time for the sole purpose of making money toward their building, but rather with the spirit of presenting to the public good, whole-some amusement.

MOTHER! IS CHILD'S STOMACH SOUR, SICK?

If Cross, Feverish, Constipated Give "California Syrup of Figs"

Don't scold your fretful, peevish child. See if tongue is coated this is a sure sign its little stomach, liver and bowels are clogged with sour waste.

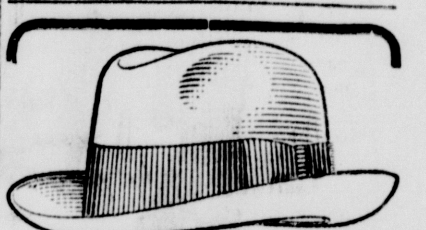

When listless, pale, feverish, full of cold, breath bad, throat sore, doesn't eat, sleep or act naturally, has stomach-ache, indigestion, diarrhoea, give a teaspoonful of "California Syrup of Figs," and in a few hours all the foul waste, the sour bile and fermenting food passes out of the bowels and you have a well and playful child again. Children love this harmless "fruit laxative," and mothers can rest easy after giving it, because it never fails to make their little "insides" clean and sweet.

Keep it handy, Mother! A little given today saves a sick child tomorrow, but get the genuine. Ask your druggist for a 5-cent bottle of "California Syrup of Figs," which has directions for babies, children of all ages and for grown-ups plainly on the bottle. Remember there are counterfeits sold here, so surely look and see that yours is made by the "California Fig Syrup Company." Hand back with contempt any other fig syrup.—Advertisement.

IN THE JUSTICE COURT

A JAIL TERM FOR DARLING

Anaheim Man Who Has Been
a Disturber Given a Stiff
Jolt by Justice

Arthur Darling of Anaheim was given a sentence of six months in the county jail yesterday by Justice Howard of Anaheim. Howard took judicial cognizance of Darling's various activities, and handed him a sentence that he thinks ought to do some good. Darling has been a disturber, and when he was brought in to Justice Howard's court yesterday on a charge of beating a board bill of \$3.90 it was proven that he had deliberately endeavored to defraud the complainant, K. O. Chemenez.

Cases Are Set
Carlos Santos, charged with selling

liquor at Los Alamitos, pleaded not guilty, and Justice Cox set the trial for Oct. 3. Rufino Jimenez, charged with gambling and selling liquor, will appear this afternoon. Jesus Savala Verugo, liquor-seller, is in jail on two charges. One trial is set for Sept. 23 and the other for Oct. 1. All of these defendants were arrested in connection with the clean-up raid on Los Alamitos liquor-selling and gambling.

Case Dismissed
Today District Attorney West dismissed a felony charge against E. E. Ragsdale. Ragsdale was charged with passing a no-fund check, the check being issued by John Ziegler of Anaheim. This check was returned from the bank, and upon that fact the complaint was issued. Ragsdale showed conclusively that he had been given authority to draw the check, but when it was presented at the company's office the man who had given the authority to him was out. With this new evidence, the district attorney asked for the dismissal of the charge.

As to Modesty
Modesty didn't make dress. Dress made modesty. Only it should be borne in mind that once modesty has been developed the conventions cannot be suddenly and radically violated without social degradation. Modesty isn't something that doesn't matter. It does matter. Exchange.

Adenoids Are a Menace to Children
Babies and young children must be carefully watched for the growth of adenoids, which spoil the mental and physical life of a child. They usually result from a succession of colds and throat irritations, and their presence is so productive of harm, that many school boards have an examining physician to detect them. The conditions that cause them may be easily avoided by careful parents. Quickly and thoroughly cure all colds and throat irritations by the use of Foley's Honey and Tar Compound, and adenoids will not develop. Rowley Drug Co. and White Cross Drug Co.—Advertisement.

Get Rid of the Torment of Rheumatism
That you can do by ridding yourself of the cause. Weak, sluggish, inactive kidneys allow the uric acid crystals to circulate in the blood, and these lodging in the joints and muscles, cause rheumatism, lumbago, and stiff, swollen aching joints. Foley Kidney Pills ease your pain and torment from the time you begin taking them. They positively and permanently build up the kidneys, restore their normal action, and strain out the uric acid crystals that cause rheumatism and lumbago. Try them. AT THE COURTHOUSE

LIBRARY AND LIGHTING TOO

Placentia Votes to Form Two
Districts for Betterment
of Community

Placentia has voted to form two districts, one to furnish street lights and the other to furnish a community library. The returns received by County Clerk Williams today shows that the proposal to form the lighting district carried by a vote of 36 to 2 and the library proposal by a vote of 29 to 7.

By the law, the Board of Supervisors manages the lighting district and will appoint trustees to manage the library. The trustees recommended are Mrs. A. S. Bradford, Mrs. T. W. Lowling and Mrs. Ina Robinson.

For Administration
N. H. Leonard of North Broadway has asked for letters of administration on the estate of J. K. Schwenk, who left property worth \$950. The heirs are two minors, who live at the Leonard home. W. H. Thomas is attorney for the petitioner.

Simple Assault
Yesterday afternoon the jury that heard the charge of attempted highway robbery against Francisco Rodriguez brought in a verdict of simple assault. Rodriguez was alleged to have held a gun on Arrevelas near Fairbairn but failed to rob him when he found that Arrevelas knew him. B. E. Tarver was attorney for Rodriguez. Sentence will be passed Monday.

Are Now Citizens
Today Orange County got two new citizens. They are brothers, born in England. Wilfred E. Hitchen, born in 1888, here since 1907, and Albert L. C. Hitchen, born in 1887, here since 1905, are the two. They work for William Crowther of Placentia. Crowther and L. W. Hale were their witnesses. This morning Judge West put them through a list of questions, and the applicants for citizenship passed excellently.

Mechanic's Lien
A mechanic's lien on a demand for \$62.47 has been recorded by D. A. Dale, hardware merchant, against Phoebe A. Wilson. The property is lot 4-A, Goodwin tract.

Final Decree
Today a final decree of divorce was granted to Clara R. Munger against C. D. Munger.

Marriage Licenses
John Sprague, 24, of Brea, and Barbara Pauline Key, 25, of Placentia.

ENGLISH LAW DOES NOT COVER FLYING

Nothing Can Prevent Aviators
From Giving Exhibitions on
the Sabbath

LONDON, Sept. 12.—The failure of King Charles the First to foresee and legislate for the advent of aeroplanes has enabled some six thousand residents of Hull and district to give the police and the local authorities the horse laugh. Incidentally scores of police notebooks were wasted in taking the names and addresses of people who could not be prosecuted.

When Aviator Robert Whitehouse announced that he would give flying exhibitions at the local aerodrome on Sundays, the "unco" guild of Hull raised their hands in horror and put up such a squeal that the police notified aviators and possible spectators that they would be liable to prosecution under the Lord's Day Observance Act, an ancient statute of Charles I, framed to prevent the irreverent from indulging in cock-fighting, bull-baiting and kindred sports on the Sabbath.

Whitehouse declared that he would fly, prosecution or no prosecution, and some six thousand spectators patronized the aerodrome despite the warnings of the police, who took the names and addresses of all present. On applying for summons, the magistrates that flying was neither a sport nor a pastime within the meaning of the law, and that prosecution must fail. Strict Sabbatarians are wroth with the "Martyr King" for overlooking such an obvious form of desecrating the Sabbath, but they realize that there is no chance of amending the law.

CONTEMPT OF LAW IS HEALTH MANAGE

Dr. Wilbur Says in Vain to Pass
Model Sanitation Laws if
Not Enforced

COLORADO SPRINGS, Colo., Sept. 12.—Contempt of law, according to Dr. Cressy L. Wilbur, chief statistician of the Division of Vital Statistics of the Bureau of the Census, Washington, is "the greatest, the underlying, the everywhere present, and so far as our present experience extends, the insuperable difficulty or hindrance to the effective registration of vital statistics in the United States." Dr. Wilbur was addressing the fourth day's session of the forty-first annual meeting of the American Public Health Association today. His topic was, "Hindrances to the Extension of Uniform Methods of Vital Statistics in the United States."

"Rapid progress is being made," said Dr. Wilbur, "in the extension of the registration area for births and deaths and in the securing of uniform vital statistics generally, but we have much to do in this respect. Some people think that all that is needed is to pass laws requiring the reporting of deaths, births or marriages, and that there the question rests."

"If I should be asked what is the greatest, the underlying the everywhere present and, so far as our present experience extends, the insuperable difficulty or hindrance to the effective registration of vital statistics in the United States I might reply: Contempt of Law."

"We may pass the best possible 'model laws,' but if the registrar or the local health officials to enforce them, or if the seal workers, the physician, and the members of the American Public Health Association fail to respect them, our work is almost in vain."

"This contempt of law in be overcome only by a thorough process of education. In the registrars of births, for instance, we need not of all a better understanding and co-operation from the women of the country. When women realize that the new children's bureau, established for their benefit, is seriously handicapped because of inadequate registration of births and infant deaths, then I believe there will be an irresistible demand that such births and deaths be properly recorded."

BONDS CARRIED AT ELECTION YESTERDAY

The Water Bonds Got a 504 to 225 Vote and Fire Bonds Got 519 to 206

VOTING BROUGHT NO EXCITEMENT

The First Ward Furnished the Greatest Proportionate Favorable Vote

The \$62,000 water bonds and the \$12,000 fire bonds carried yesterday, the former by a vote of 504 to 225 and the latter 519 to 206.

A two-thirds vote was necessary to carry, and neither of the bonding proposals had many votes to spare, as shown when the totals were made by City Clerk Burke last night. The election passed off quietly. There was no organized opposition, and no hustling for votes by those favoring the proposals.

With the money voted for the water department an auxiliary pumping plant will be installed at the water works so that should the plant now in use have a break down the new plant can be put into immediate service, with no failure in the service. The city will buy an automobile fire truck and additional hose for the fire department.

The vote yesterday by wards was:

TRAVELING MEN PRAISE SANTA ANA, A HUSTLING CITY

Santa Ana has not only established an enviable reputation as one of the fastest growing cities of Southern California, but now is being generally recognized as the most progressive and hustling city of the southland.

Evidence to back this assertion is daily being brought to the secretary of the local Chamber of Commerce. Secretary Metzgar says that dozens of traveling salesmen, who are constantly on the move, and who visit cities in all parts of the United States, tell him that this city is the most wide-awake that they have visited. "These men are experienced and they know what they are talking about," said Mr. Metzgar. "They say it because they know it to be true."

ARTILLERY WORK RECORD MADE BY ITALIAN TROOP

ROME, Sept. 12.—All records for artillery work have been beaten by a battery of Italian mountain artillery which climbed the central crater of Mount Etna and fired its guns on the brink of the volcano, at an elevation of 11,000 feet. The soldiers who carried the regular equipment made a long day's march from Catania, and encamped for the night on the outer fringe of the Linguaglossa forest. At dawn they commenced the arduous task of hauling the guns up the Mongibello side of the volcano over the eternal ashes in which the mules sank knee deep. The last part of the climb had to be done with the mules hauling their own guns, the mules being unable to go further. Reaching the summit firing exercises were carried out until the soldiers were compelled to retreat to avoid asphyxiation by the sulphurous smoke from the crater.

BRIDGE STANDS TREMENDOUS WEIGHT

West Fifth Street Structure Yesterday Given Severest Kind of a Test

STEAM ROLLERS OVER ON ROUGH ROADWAY

When Surface is Laid Bridge Will be Open to Use by the Public

The West Fifth street bridge was put through a severe test yesterday. With the roadway extremely rough, two thirteen and a half ton rollers were steamed across it abreast. The re-inforced concrete structure stood the test to the full satisfaction of every person. The bridge was guaranteed to hold twenty tons. Yesterday there was sixty tons of crushed rock placed on the bridge for the surface work, and twenty-seven tons in two steam rollers went across the bridge and back again.

This bridge seemed to have had a hoodoo attached to it for a long time but the hoodoo must have taken flight to some other burg, for the bridge has proven to be an excellent structure.

The county let a contract to R. L. Hogue for building the bridge on West Fifth street across the Santa Ana river. Hogue fell down on the job, and the county made arrangements for the structure to be put up by the Young Construction Company of Los Angeles under county supervision, the county to pay the company fifteen percent as its profit. During construction difficulty was encountered getting a firm foundation. Then the Guardian Casualty Company, which was on Hogue's bond, refused to come through with the surety money. The county had to sue, and the case is still unsettled.

After the bridge was finished it stood apart from the road for several weeks, awaiting the construction of the approaches by the County Highway Commission, which had to go through the necessary procedure before construction could commence. After the approaches were built came another period of waiting for the surfacing of the bridge roadway. That has not yet been finished.

The story got out that there was something wrong with the bridge, that it had been built and had been condemned as unsafe, that it had cracks in it that reached clear through it, that the county was stuck, and that the probability was that the bridge would never be used. Many who looked the bridge over took joints for cracks.

The Board of Supervisors had confidence in the bridge. It had cost \$32,000, and the board believed that the county had secured a first class structure. With the reports out against it, however, the board decided that a severe test was necessary. Yesterday a carload and a half of crushed rock was piled on the bridge. Inspector Decker did not know a test was to be made, and the rock was still in heaps along the bridge. Men leveled it off as best they could, and the test went forward.

William M. Thomas of Thomas & Post, Los Angeles, engineers who designed the bridge, and P. I. Wellman of that firm were present to witness the test. Supervisors Talbert of Huntington Beach, Leck of Tustin and Schumacher of Buena Park were on hand with other county officials, including County Surveyor McBride.

It was after 4 o'clock before the big steam rollers were both on the bridge. One of these came from Placentia and the other was one used by C. E. Chamberlain, who has the good roads contract on West Fifth and West First streets.

The county steam roller was the first to approach. Walters did not have much confidence in the bridge. Engineer Thomas declared emphatically that the bridge would hold up fifty rollers, that not enough steam rollers could be taken on the bridge to break it. While the second roller was steaming up, Thomas and Wellman climbed into the county roller, and took it across.

The question concerning the stability of the bridge had made it seem advisable to pull the rollers across with a wire cable, and Thorp, the house-mover, was at hand to do the job. Thomas would have no cable.

The journey across was rough, part of the time the huge wheels were on the concrete floor and part of the time on top of piles of crushed rock. Where stray pieces of the granite were caught between the concrete floor and the roller, the rock was crushed to fine powder and no dent at all made in the cement.

After the second roller had steam up, it started across with the county roller. On the first span one got up no different from the ordinary, except for a few yards the big rollers were abreast. The roughness of the road way made the test extremely severe.

The bridge is 3.0 feet long. The central span is 102 feet 6 inches long, and the others are ninety-six feet each. The bridge is built in sections so that expansion and contraction are allowed for. Thomas' patents were used. The mixture of concrete was no different from the ordinary, except perhaps that there was more cement used than is often used in concrete work here. Certainly the concrete is harder than rock now. The bridge is in the rough, no great attempt having been made to smooth the surface.

There is no question but what the bridge is now perfectly safe for any loads that will ever go across it. Not enough oil wagons and loaded sugar beet wagons could be put on it to harm it. That was the unanimous judgment of those present yesterday.

The test yesterday was severe because the weight most of the way came directly on the cement, the vibration in no way softened by a surface. When the rock is spread and oiled there will be a surface to receive the shock.

Last Call on Mahomet's Mountain!

You've Got to Get Action Within 24 Hours-- Our Santa Ana Allotment Closes Tomorrow Night

Your last chance—your final opportunity—just 24 hours grace. Then you'll join the ranks of the "might have beens." You know the type—the old codgers who sit around and mournfully relate how they "could have bought the corner of Fifth and Spring Sts., Los Angeles for \$300," but they didn't realize how values would advance—didn't want to tie up that precious \$300—didn't quite have the nerve to take the plunge; so they passed it up to their everlasting regret. Their hindsight was better

than their foresight. That's what you'll be saying in a couple of years' time—when you see your neighbors cashing their Mahomet's Mountain dividend checks.

BRACE UP! COME ALIVE! DON'T CARRY A WISHBONE WHERE YOUR BACKBONE OUGHT TO BE! Don't grub along all your life missing your golden opportunities. There's not a man or woman who has made a thorough, searching analysis of this project but who admits that

\$100 Clear Profit on Every \$10 Invested Is a Fair Estimate of the Earnings of this Colossal Enterprise

Mahomet's Mountain is the final, culminating, triumphant masterpiece of Chas. A. de Lisle Holland's brilliant career. His previous productions, "CREATION," "ARABIAN NIGHTS," "THE MAGIC MAZE" and many others literally coined millions upon millions

for Holland and his associates. That Mahomet's Mountain will surpass the records of all his previous productions is a foregone conclusion. Thirty million dollars will be spent for amusements at the San Francisco Exposition. And Mahomet's Mountain will command a big proportion of this staggering total.

Seven Million Admissions Averaging 40c per Head

is what we can safely count upon. The records of Holland's past triumphs prove this to be a reasonable estimate. 22,000,000 people attend-

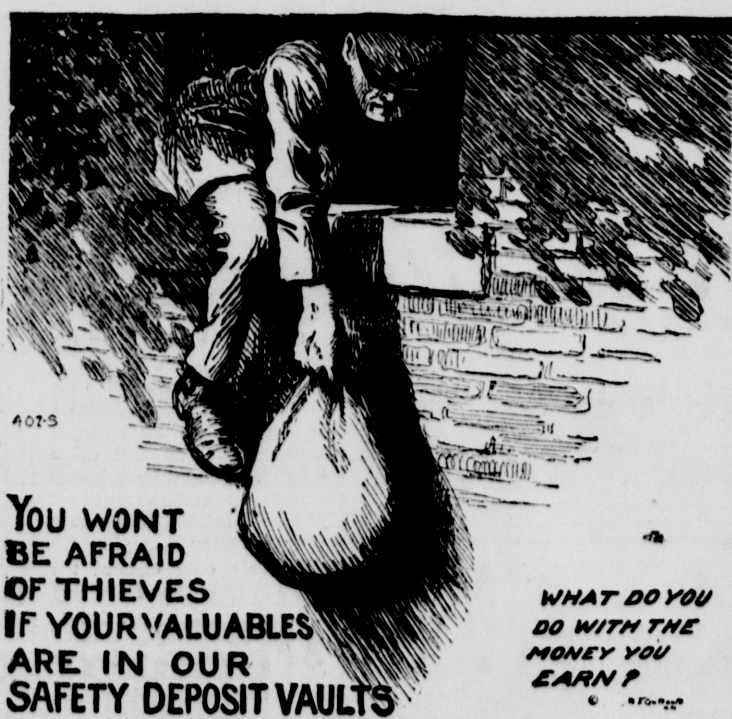

ed the Chicago Exposition; probably double that number will be present at San Francisco. And 7 million admissions at 40c each will yield us \$100 for every \$10 invested. Now then,

Come in Tomorrow--Office Open Until 10 P. M.

See the gigantic model of Mahomet's Mountain at the Santa Ana Garage, 214-216 East Fourth St. Talk to our representatives, Mr. Clevidence and Dr. Fletcher. Buy a block of stock at 20c per share—easy terms if you want them—10 per cent down—10 per cent per month. It's your opportunity, Mr. Investor. Your one sure and certain opportunity. Mahomet's Mountain will pay rich dividends for years to come. After the San Francisco Exposition we shall operate in other similar fields. A little capital in this enterprise now should mean a competency for the rest of your life. Don't let this chance slip through your fingers—don't let your future years be soured by useless regrets. Let Holland's genius coin a for-

tune for you. Your money in the bank draws 4 per cent per year—your money in Mahomet's Mountain should yield 20 times as much. We put it right square up to you. It's your last chance—come in tomorrow. Office open until 10 p. m. Order by mail.

Join us now at 20c per share; easy terms if you want them—10 per cent down—10 per cent per month. Opportunity Knocks But Once: IT'S HAMMERING AT YOUR DOOR THIS MINUTE! CRAZY OR CLEVER?

PARIS, Sept. 12.—His last hope of appeal gone, France's famous "super-man" footpad and "poet" today began his term of six years' imprisonment. Jean Michelon is his name. He sand-bagged a woman and robbed her of \$700, but when betrayed by a friend, spouted an ode to the sun before the police. "I may be a crook," he said, "but I am an ideal man, I am a super-man. I crack a lady on the head, I grab her coin and run; but any dub that has no bed can touch me for the mun!" The authorities are divided over whether Michelon is crazy or clever.

A Potpourri of News and Views

From the Los Angeles Financial Review of Sept. 6.

Monetary Conditions Improve.

"Crop conditions throughout the East are mostly satisfactory and warrant stability to matters financial. Despite the currency reform and tariff tinkering the big Wall Street operators believe that the Wilson administration will avoid anything which would create an actual and real financial stringency," declares H. C. Williams, president of the Bankers' Bond and Mortgage Company of Los Angeles, who is just home from an extended trip East. Continuing Mr. Williams said:

"Los Angeles is undoubtedly the leading city, centering the greatest development in the country. From crop reports, building permits, bank clearings and other matters of like character which I have observed, Los Angeles is going right ahead without fear of interruption of her prosperity."

"As for the country in general, the worst of the slight stringency is past and better conditions may be looked for this fall and winter, particularly with respect to the return to a normal investment market. It is true that money today commands a higher premium than it has in a number of years, but this is an abnormal condition which bankers do not expect to prevail for any great time. Crop conditions throughout the Mississippi country and the East are mostly satisfactory and warrant stability to matters financial. Even without Treasurer McAdoo's \$50,000,000 crop distributing contribution the banks would have been able to meet the natural demands of the harvesting season."

"As for the decline in the security market, it can only be said to be of phenomenal character and cannot for any length of time continue. Evidences of returning confidence at this time are very numerous. Speaking truthfully, California has felt less of the present trouble than any other state, and this is recognized by the financiers of the East."

"Several of the large insurance companies which have big sums of money invested here are turning here for further investments and I have had some of the leading men of these companies declare that there is not another state in the Union that is so thoroughly well grounded in its investment possibilities, making the risk smaller than anywhere else."

World's Grain Crops

An increase of 3.9 per cent in the production of wheat in the principal wheat producing countries of the northern hemisphere is reported to the United States Department of Agriculture by the International Institute of Agriculture at Rome, Italy. Figures for the crops reported are:

Wheat—Preliminary figures of production this year are, in Prussia, 94,106,000 bushels; Russia, 812,511,000 bushels. In the following named countries the total production is estimated at 2,684,000,000 bushels, which is 3.9 per cent more than was produced in same countries last year: Belgium, Bulgaria, Denmark, Spain, Italy, Luxembourg, Russia, Switzerland, United States, Canada (winter wheat), India, Japan, Algeria, Tunis, Prussia, England, Wales, Hungary (excluding Croatia and Slavonia).

The total production in the wheat countries named above, excepting Canada and India, is estimated at 1,143,000,000 bushels, which is 1 per cent more than was produced in the same countries last year.

Rye—Preliminary figures of production in Prussia are 895,084,000 bushels. The total production in the following named countries is estimated at 1,408,000,000 bushels, which is 8.8 per cent less than was produced in same countries last year: Belgium, Bulgaria, Denmark, Spain, Italy, Luxembourg, Russia, Switzerland, United States, Prussia, and Hungary (excluding Croatia and Slavonia).

Barley—Preliminary figures of production in Prussia are 80,386,000 bushels; Russia 479,230,000 bushels.

Oats—Preliminary figures of production in Prussia are 338,233,000 bushels; Russia, 1,073,232,000 bushels. The total production in the barley countries named above is 2,808,108,000, which is 10.3 per cent less than the same countries produced last year.

Flaxseed—The total production in Belgium, Spain, United States, India, and Japan, combined, is given as 42,000,000 bushels, which is 22.8 per cent less than the same countries produced last year.

No Secrets from Public

Railroads of the United States do not keep secrets from the public. So long as this attitude continues the transportation problem will be solved, otherwise public ownership of the roads will be demanded by the public. This in brief is the utterance of John H. Marble of the Interstate Commerce Commission who is now on a tour of the Pacific Coast. In an address before the Commercial Club in San Francisco in referring to the plan which the commission is about to put into effect to value all the property of the railroads and other common carriers, he said that it might cost from \$10,000,000 to \$12,000,000 but that it would be money well spent in carrying out the experiment of regulation. Continuing he said:

"Perhaps the greatest change in the United States has been the attitude the railroads have adopted toward the commission. Railroad men now recognize that the experiment of leaving railroad capital in private ownership and still preventing discrimination and extortion is on trial. I believe that it will be a success by the co-operation of State and Federal authorities. Railroad men are no longer against regulation. They know now that it is better to do business openly than to have any private arrangements with shippers. The great mass of them are no longer keeping secrets from the public. If this attitude continues I think that we shall solve the transportation problem of the country. If not, the people will inevitably demand the trial of a third experiment, public ownership."

Exports of Wheat.

Wheat added about \$142,000,000 to our international trade in the fiscal year ending with June, says the Wall Street Journal. The amount exported, with flour, was equivalent to almost 143,000,000 bushels. This is like old times, and naturally everyone wishes for a repetition in the current year. Last season the importing countries purchased over 650,000,000 bushels of wheat. Apparently, their requirements will be as large this year. Experts are now figuring on the import needs of these countries at only about 30,000,000 bushels below last season. Harvest returns may change this estimate to some extent, but the requirements can not be far from last season's figures. The southern hemisphere does not harvest until about January, with India a couple of months later. Russia and North America, therefore, will be the principal source of supplies for the next six months.

Unsettled weather has delayed harvest operations in some districts of Russia. Conditions under which her crop will be harvested seem neither very good nor very bad. The United States will have an easy opportunity to dispose of all its large surplus. European buyers, with their usual astuteness, have taken in the size of our great crop. They see the world requirements can be met until the southern hemisphere and India put their next harvests on the market. Therefore, there has been no wild scramble for wheat. Neither was the last year; but there was quiet but persistent buying that took wheat whenever it was on an export level.

Drought may interfere with the outflow of wheat. In former years such a drought as the Southwest has experienced would mean a stampede of livestock to market. But this year the farmers are trying to hold on to their animals. It is to be hoped they can carry the greater part of them through. But unless their silos are well filled, and in kaffir corn and other drought-resisting grains they have feed sufficient, they will naturally feed wheat when it is relatively cheaper than corn.

The movement of winter wheat to the primary markets of the Southwest for the next few weeks should throw considerable light on the probable exports of the cereal.

Scores New York Bank.

Declaring that the National City Bank of New York is conducting a propaganda in an attempt to discredit the administration and making it appear that in framing the currency bill now before Congress and currency legislation that the banking interests of the country were not consulted, Senator Owens, chairman of the Senate Committee on Banking scores that financial institution mercilessly.

Senator Owens' statement is in the shape of a letter to James Simpson, vice-president of Marshall Field & Co., Chicago. Mr. Simpson's telegram to the committee was based upon a statement sent broadcast by a New York newspaper to bankers, alleging that "cooperation between the framers of the administration currency bill and the bankers of the country appear to be lacking."

The Senator declares that four days before the statement was published the press carried notice that representative bankers would be heard by the Senate currency committee. The Senator relates at length the remarkable amount of information before the committee in the way of hearings and investigation by the committees of the two houses, the monetary commission and the individual research of members of the committee, and brands as "utterly untrue" the suggestion that the framers of the bill "have denied a free exchange of opinion," and recites an abundance of facts to substantiate his statements. In conclusion Senator Owens says:

"The propaganda now being carried on, led by the National City Bank of New York, which has circularized the country against the bill, is obviously intended to discredit the administration and make it appear that the bankers have not been consulted, and that the committee is not well informed. This misrepresentation has the effect of poisoning the public mind and misleading public opinion. Such misrepresentation with us promotes a private interest against the public interest. It is an open secret that these great concerns like Morgan & Co. have publicly agents to whom they pay very large salaries and who are able to create fictitious and false public opinion unduly favorable to the conventions of these great financial companies."

"I deem it my duty to advise you that you are being misled by an artificial propaganda conducted in behalf of private interests, which does not hesitate to convey to the country the false suggestion that the administration is proceeding without adequate knowledge or without giving a hearing to the bankers of the country."

"The rank and file of the bankers of the country constitute one of the greatest, most important and most valuable parts of our national commercial machinery. They have been of great value in promoting every kind of enterprise and one of the most useful features of the proposed public utility banks—the so-called federal reserve banks—will be to give stability, peace of mind and greater opportunity to the bankers of the country to render patriotic service."

"It is not surprising that a few men having an enormous control of credits of the country should oppose surrendering to the United States in any degree the vast power which they have heretofore experienced, enabling them to control credits to 'bull' and 'bear' the market to enrich or impoverish other men."

Wool Output in Australia.

Wool production in Australia for 1912-13 is, according to Dalgety, estimated at 721,000,000 pounds, against \$10,000,000 the previous season, or a shrinkage of 119,000,000 pounds. The number of sheep is given at 107,200,000, compared with 117,000,000. Purchases for the United States and Canada were 41,000 bales, against 65,000 in 1911-12. These included 21,000 bales from New Zealand, against 12,000 the previous season, leaving the total from Australia only 20,000, compared with 53,000 in 1911-12.

Deal for Oil Companies

French capitalists have been looking over oil properties in the Santa Maria field with a view to taking over several properties in that region. These properties are the Dome Pinal, Rice Ranch and New Pennsylvania Oil Companies. The amount involved is \$3,000,000. The negotiations for these properties which have been on for several months, appear now to be near a consummation.

Makes Buildings 30 Degrees Cooler

On a hot summer day the temperature in the upper part of a building covered with J-M Asbestos Ready Roofing is from 15 to 30 degrees cooler than with any other roofing. The white asbestos surface reflects the heat instead of absorbing it and transmitting it to the rooms below.

This is only one of the exclusive features of

J-M ASBESTOS ROOFING

Besides making a building cooler in summer and warmer in winter, it is the only ready roofing that never needs painting. J-M Asbestos is also the only ready roofing that is fire-proof.

ITS FIRST COST IS THE ONLY COST.

LOS ANGELES PRODUCE MARKET

Mushrooms made their first appearance in the wholesale market yesterday. One crate was received from the north and was quickly bought by a retailer. They sell at 35 cents a pound.

White onions are scarce and yesterday they went up to \$1.55. The brown and yellow onions are selling at \$1.50 a cwt.

Heavy shipments of northern sweet potatoes are being received and they have come down to \$2 and \$2.50.

Montana crabapples are more plentiful and are selling at 35 cents a pound. There is an abundance of Muscat grapes in the market and they came down yesterday to 75 cents.

Okra is plentiful and is selling at 7 to 7 1/2 cents a pound for the best. Rhubarb is going out of the market. It will be quoted today at 1.65 a box. Peaches and plums are going out of the market, and apples are just beginning the best part of their season.

Never so well and happy since wearing our comfort glasses, says a prominent woman. Dr. K. A. Loerch, Eye Sight Specialist.

"Our Reputation at Stake in Every Deal We Make."

Racers Discuss Corona Results

TEDDY TETZLAFF says: "Back to Orange County for the good houses in Santa Ana are a better investment than auto tires at \$150 per set. There is one house for instance (9 rooms) on Spurgeon St., that would be big enough for Cooper High now, that can be had for as low as \$4500, with all the fruit and nuts he wants. Then there are two fine bungalows near Hickey street that are perfect homes, only \$3000 each. There's some buy."

BARNEY OLDFIELD is so disgusted that he's going to look up that fellow on Hickey street who will allow \$500 for an auto as part payment on a \$2500 bungalow. He thinks a 6 room one with built in buffet kitchen and dining room, French doors, summer house among walnuts and a nice lawn would be an ideal place to nurse a bruiser. Barney certainly proved himself a man tho', and for his heroism the owner

has knocked off \$400 on the place and will let him pay for it at \$23 a month.

A MANSFIELD (No. 14) says he's out of a place to live. He'll take his \$1500 Los Angeles house for a quiet one in Santa Ana.

DE PALMA didn't have any luck at all. Couldn't even touch a bargain 5 room house furnished, on East Pine street at a mere \$2400. Haven't someone a tobacco stand at one of the beaches. To trade LEACH for a close in home to the Poly High?

COOPER'S wife. He sees that by putting his money in farm lands, by 1915 he won't have to race any more. He knows where to go, too.

But say, will some one kindly tell us to what denomination the MINSTER belongs? We've got the house but don't know if it's near the right church.

You Can Beat Them to It Though.

Get In on the Ground Floor With a Home Company in a Safe and Enormously Profitable Manufacturing Enterprise

Our factory is now in actual operation, our experimental work completed, and we are now going ahead with our tool and die making. Our plant includes about \$20,000.00 worth of machinery, all of which is installed in partial operation. Except for a small balance owed on our plant, we have no indebtedness. Our factory is as complete as any on the Pacific Coast. It is located near the Santa Fe station in the city of Orange.

We Own Nine Valuable Patents on Absolutely New Vending and Merchandising Machines

We have nine broad and protecting patents, allowed and pending, on the most perfect line of vending and merchandising machines, ever invented. Each machine is a marvel of automatic perfection and each is designed especially for a certain line of goods.

MILLIONS IN SLOT MACHINES

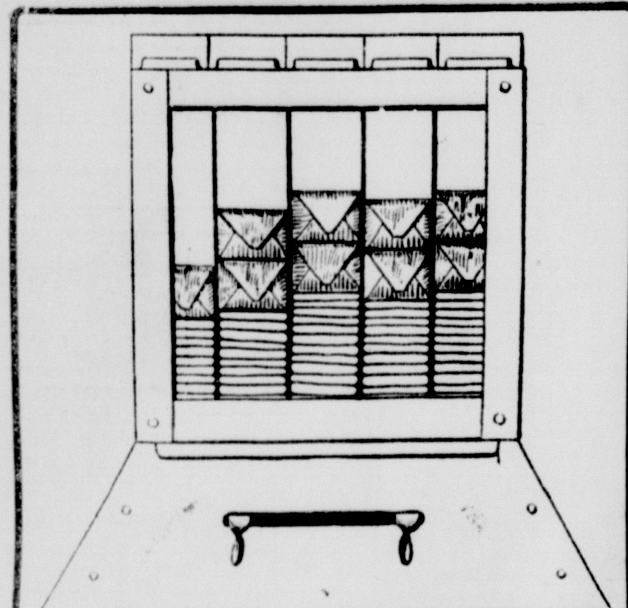

The total capital invested in penny slot machines in 1907 was \$47,000,000.

Receipts amounted to \$32,000,000, a gross return of 68 per cent on the investment.

In 1907, chewing gum machines alone took in \$20,000,000; chocolate machines \$7,000,000; weighing machines \$5,000,000.

The above is a statement of facts that can be easily verified.

Below are a Few of the Vending Machines we will Manufacture:

Model No. 1

Our Little Wonder Automatic Show Case Display Machine

The Package Vendor

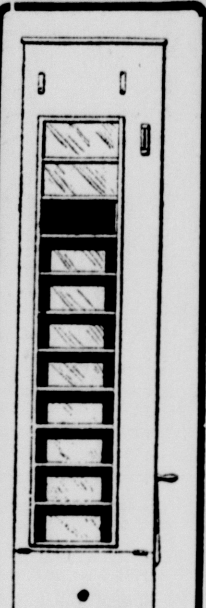

Our Model No. 5

Will sell any kind of unbreakable package goods. Assorted selection. Glass front, same as show case; allows customer to see and select goods desired.

Facts and Figures About Our Model No. 1 Machine

The Little Wonder or Automatic Show Case Display Machines have been figured to us to cost less than \$1.00 each to make, but let us add 50 cents and count them to cost \$1.50 each. These machines are to be leased to agents, carrying a restricted and exclusive territory, at \$7.50 each.

100 machines, lease cost \$750.00
100 machines, factory cost \$1500.00
Profit \$600.00

We furnish all the goods this machine handles, thus making a profit on all future orders for years to come. Other machines on which we hold patents, show even better profits.

The Continental Sales Company is capitalized at \$200,000. We have a limited number of shares that we offer for sale at par. We don't ask you to invest without first thoroughly investigating our organization and the line of goods we propose to manufacture. We are right here at home, where it is very easy to substantiate our claims. Our factory and offices are in the same building. We would be glad to show possible investors through and explain fully our entire proposition. We invite you to call, or will mail you our descriptive booklet on request. Terms given on purchases of stock, will be made known on application.

Fill out the application below and forward to us at once, with Money Order or Bank Draft. If unable to pay cash, you can send one-fourth with application and balance in one-fourth each month until paid, provided you fill out, properly sign and forward installment note—note Form "B," which note draws 6 per cent interest until paid.

A Word About Our Business

Like automobiles, vending machines and automatic merchandising have come to stay. Have you ever seen stock for sale in a Vending Machine Company? Has any stock ever been offered to you? Stop and think! Our Company still has a few shares left, which we offer for sale. The Continental Sales Company is capitalized at \$200,000—pretty small isn't it? But then we do not need a great amount of money, as our Little Wonder Automatic Show Case Display Machine, once on the market, will in itself, make money faster than we can use it. For instance, 1000 machines should easily be placed in Los Angeles. All Candy Stores, Restaurants, Cafeterias, Cigar Stands, and almost every other place where there is a show case, can and should use our machines.

SEECIAL WASHINGTON LETTER

By Burton K. Standish.

WASHINGTON, Sept. 11.—Acceptance by congress of a bequest of \$2,000, made under one of the most unique and unusual conditions in the government's history, is a problem facing congress and the post office department today.

That the postal money order system be officially and legally recognized as the "child" and legatee of a deceased government official has been solemnly recommended to congress by Third Assistant Postmaster General Dockery. For eleven years the bequest has been available. Now the postoffice department recommends that the money be accepted and used as a trust fund in accordance with the will of the donor.

Dr. C. F. McDonald, formerly of Boston, the "father" of the money order system, is the government's benefactor. He died in 1902, leaving \$2,000 to Uncle Sam for the extension and betterment of the federal service.

For eleven years lawyers of the department of justice, the postoffice department and congress have been unable to decide what to do with the money. A treasury draft for the legacy has lain in the office of the chief clerk of the postoffice department since that time. Now it is proposed that congress formally pass a law accepting the money and appoint a commission for its use as directed by the testator.

Dr. McDonald's will provided: "The sum of \$2,000 to the secretary of the treasury for the service of the postoffice department to be used by the postmaster general in such way as he may deem expedient for the improvement of the postal money order system of the United States."

The will was duly probated and the \$2,000 turned over to the treasury department by the administrator of Dr. McDonald's estate. Legal sharps of the government road ponderous tomes and many long opinions, holding that the money order could not be accepted by Uncle Sam, although the money was already in the treasury subject to the draft given the postoffice department. Succeeding administrations puzzled with the legacy, but could not touch it.

In 1906, former Senator W. Murray Crane of Massachusetts sought to solve the problem by attempting to have the \$2,000 released by the government and turned over to a distant relative of Dr. McDonald, who was an employee of the postoffice at Boston. The federal lawyers got busy again and decided that this could not be done; they held that while the government could not accept or use the legacy, in the absence of legislation by congress neither could it give the money to McDonald's relative.

For seven years the matter was held in abeyance, with the \$2,000 awaiting disposition. The knotty problem was a legacy officially "in-

herited" by the new Democratic administration. Third Assistant Postmaster General Dockery recently transmitted to congress, through Postmaster General Burleson and Secretary of the Treasury McAdoo, a letter recommending that congress authorize department to accept and use the bequest. Dockery's letter stripped of its official "red tape," teems with human interest. He said:

"Dr. McDonald was the father of the money order system and its first superintendent. He founded the system in the United States and made it the life work, devoting to its success all the time and energy. Childless, he watched the growth of this creature of invention until it came to be the greatest and most successful system of its kind in the world, and it seems natural enough that his pride in that success assumed the attitude of a parent toward a favorite child. Viewed in this light the bequest by which he endeavored to secure continued improvement of the service when his far-seeing mind could no longer direct the policies and safeguard the interests of the system, is easily understood, and seems to

impose upon the department as a trust the duty of making all reasonable efforts to fulfill his wishes.

"Law officers unite in pronouncing the bequest valid and the title of the United States perfect. Therefore, in order to enable the department to realize the testator's wish and thus honor his memory by efforts to advance the interests of the service, I suggest that the whole matter be again referred to congress with a recommendation that its formal sanction be given to acceptance of the gift, and that the amount of the bequest be specifically set aside and expended under the authority and direction of a commission of three persons to be appointed by the postmaster general and to serve without compensation."

The house postoffice committee is now considering favorable adoption of Dockery's recommendations.
